Corpo e coperchi in alluminio pressofuso.  
Coperchio laterale con livello olio.  
Coperchio posteriore con scarico olio.  
  
Cuscinetti a rulli conici.  
Bielle in lega zinco-alluminio pressofuso.  
Testa in ottone stampato. Possibilità di testa in ottone nichelata.  
Piston in ceramica.  
Cuscinetti a rulli conici di alta qualità.

*Crankcase and cover in pressure die-cast aluminium alloy.  
Side cover incorporated with oil sight glass.  
Back cover incorporated with oil drain outlet.  
Tapered roller bearings.  
Connecting rods in die-cast zinc-aluminium alloy.  
Pump head in forged brass. Nickel-plated brass head available.  
Ceramic plungers.  
High quality tapered roller bearings.*

## 402 SERIES

Derivata dalla RG ma con testa di nuovo disegno per poter raggiungere pressioni più elevate grazie al posizionamento delle valvole di aspirazione sopra ai pistoni.  
Pompa a facile manutenzione grazie all'architettura della nuova testa.

*Pump derived from the existing RG series pumps with a new-design head with the suction valves placed above the plungers to generate higher-than-normal pressures. The new head configuration simplifies pump maintenance.*
